

20/20

The secret to putting together one of the more fun, and most popular additions to our wine list was to find what current publications are calling "Value Wines". The grapes are often not recognized or fashionable and many are hard to pronounce. These selections are from the major wine producing regions of the world and many are available only in limited quantities. Look for interesting varietals like Monastrell or the Conquista Torrontes. We couldn't think of a better way to showcase these unique wines and let the adventurer in you take over. Simply, 20/20 refers to the number of choices that we offer in this section and each bottle is only \$20. This list will not doubt change frequently as there are many great wines yet to be explored.
