

ZINFANDEL

Now we're getting into some red wine! For Zinophiles, this wine has no match. Originally, this wine was used to make "spaghetti red". The vines were planed in California during the 1850's, and, to our good fortune, some of those "Old Vines" were spared even while the popularity of other varietals showed more promise commercially. Today, some of California's newest and most successful wineries are doing amazing things with those "Old Vines." We hope you'll appreciate their efforts.... and to those visionaries who resisted tearing up the old vine Zins ... we thank you!

2008	CHARLES KRUG <i>St. Helena-Napa Valley</i>	46
